QUICK CUSTOM

Take it from us, there never seems to be enough time to get ready for big events like a safari or the holidays. For that reason, we get a lot of questions like “How soon can I get this?” For example, in July alone we had eleven customers, needing a total of 43 items, who were less than ten days away from their departure date! Clearly, quick turnaround and ready availability are very important to you, our loyal customers. We decided that the best way to satisfy this need is not some high-tech inventory system that only tells you whether we have your item in stock or not. No, instead of spending our limited resources on expensive software, we choose to invest our dollars in inventory. The products you want, when you want them.

If you are wondering when your order will ship, the quick answer is the next business day. What are the exceptions? As you might expect, personalized items and special orders. For example, add a week to monogram a Shooting Stick connector and a month for scrimshaw.

We inventory over \$100,000 of Courteney® boots in their seven most popular models so even though they are hand-made one at a time in Zimbabwe, we can have them anywhere in the USA in just a few days.

We start building our inventory of custom-made shooting stick components right after the January shows, not for the coming year but for what we think we will sell in January two years out. This allows the wood to sit for a full year, ensuring it is properly stabilized before assembly and shipment. Doing almost all the work years in advance allows us to ship these custom-made items the next day.

What does all this mean to you? If you see it on our site or in our catalog, there is a better than 99% chance it will ship the next business day. Take it from those eleven customers in July who left for their safari fully equipped. *Think Quick Custom!*

Good Hunting,

AFRICAN SHOOTING STICKS

PLATINUM EXOTIC WOOD STICKS-These are the same ones that received the coveted Gray's Best award in 2009. They combine rigid, exotic wood shafts and come with two pairs of hand-sewn tops that will not snag on brush, one in leather and the other in zebra or buffalo. The anodized take-down connectors are milled out of solid aluminum and have three points of contact for unmatched strength. Use the same sticks the best known PHs in the business rely on season after season and that travel everywhere with Craig Boddington. Available in the three exotic woods pictured. *Specify Medium (under 68"), Large (69-75") and XL (above 76")* **\$349**. Engrave name for **\$49**-order by 12/16 for holiday delivery.

DOUBLE RIFLE REST

Padded leather rest is designed to fit wide double rifle fore ends like a glove but will also work with bolt actions. Don't take a beating sighting in from a bench—stand up and roll with the recoil. Not recommended for smaller diameter sticks. **\$39**

"Donna and I don't go anywhere without our African Sporting Creations shooting sticks...but ASC is a lot more than shooting sticks! African Sporting Creations is your one-stop-shop when you're getting ready for your next safari or looking to weave the fabric of Africa into your lifestyle or trophy room."

- Craig Boddington

SILVER AFRICAN SHOOTING STICKS

These are just as functional as the Platinum exotic wood ones above but without all the bells and whistles. Shafts are Hickory, a tough, rigid wood used for axe handles, and these are combined with anodized take-down connectors. Come with one set of machine-sewn leather tops and carry case. This is the same version Dirk de Bod, the SCI and DSC PH of the Year, has been using for the past 10 years. *For 69'-75" hunters*-**\$229**

"I have hunted all over the world with your Shooting Sticks, most recently in the mountains of New Zealand. The other hunter in camp was giving me a hard time about how much I spent on them until we had to traverse a narrow pass the following day. He was the first one through and had his aluminum set collapse when he put his weight on it and almost took a nasty tumble. I was behind him and he asked if he could use mine. Took a great Tahr and please send me another set as my fellow hunter was staying on and made me an offer I could not refuse."

MONOPODS & BIPODS

PLATINUM GRADE SHOOTING STICKS-People often ask us if our Gray's Best award-winning shooting sticks are collapsible. When we tell them, "No, but they do unscrew by hand to fit into your airline case," we usually get a funny look. There is no way our sticks can collapse. On every other set of shooting sticks, the connector or adjustment mechanism is the weakest part of the unit. On ours, the connector is milled out of solid aluminum and is the strongest part. We make all our sticks in Ohio, and they go through over 100 steps before they ship to you. That attention to detail allows us to offer a real lifetime warranty.

All our full-length models share the following:

1. Incredibly strong, positive locking take-down aluminum connectors, hard anodized black to eliminate reflection;
2. Padded tops to protect checkering and lock in your rifle;
3. Extremely rigid wood or carbon fiber shafts;
4. Thick plastic bumpers to make them extremely quiet and sharpened bottoms to eliminate metallic sounds;
5. Custom made-to-order and can be used standing (both sections) or sitting (top section only);
6. Include a heavy-duty canvas case to prevent your sticks from coming into contact with your rifle during transport;
7. Optional engraving of the recipient's name (\$49)

PLATINUM SEASONED HUNTER STAFF-One of our "seasoned citizens" wanted a shooting stick that would double as a stout walking staff to help him navigate the toughest terrain. The 1" diameter exotic wood shaft is very strong, and it is combined with a virtually indestructible take-down connector. The pictures below will give you a good idea of the features we incorporate into one of the nicest products we make. Available in the three exotic woods pictured on the previous page. **\$399** *Specify your actual height in inches and whether you use a scope or iron sights. Engrave name for \$49-order by 12/16 for holiday delivery.*

HEAVY-DUTY BIPOD-Len Taylor from Zimbabwe challenged us to build him a bipod that would be rock steady and virtually indestructible. This is what we created. The 1" diameter construction is super strong, and it showcases the beauty of the three exotic woods pictured on the previous page. The take-down connectors are the same ones we designed for the Green Beret snipers to use with the .50 caliber BMG round. These sticks feature thick rubber tops and a heavy canvas carrying case. **\$349** *and specify Large (69-75") or XL (above 76"). Engrave name for \$49-order by 12/16 for holiday delivery*

CARBON FIBER & SPECIALTY SHOOTING STICKS

PLATINUM CARBON FIBER SHOOTING STICKS

These are for anyone who wants the lightest and most rigid sticks available. Carbon fiber is 4 times stronger than steel yet weighs less than aluminum. Standards are approximately 1 pound, and Featherweights use a shorter connector to save additional ounces. *Full Length Featherweights - \$419, Full Length Standards - \$399, Large (69-75") and XL (above 76"). Engrave name for \$49-order by 12/16 for holiday delivery.*

Carbon Fiber Shooting Stick

CARBON FIBER TREKKING STAFF-Helps when traversing rough ground and then provides a stable platform to take a kneeling or sitting shot. These one-piece staffs are 2/3 length with pointed hickory bottoms. The hickory bottoms add 8" for a total length of 48". *Bipod Trekking Staff - \$189.*

Carbon Fiber Trekking Staff

SUPER COMPACTS are for those who travel with firearms taken down (doubles, Blaser®) and need a compact set of Shooting Sticks to fit in a shorter case. Instead of one set of anodized, positive-locking connectors, these use two sets. **Featherweights** weigh three lbs. and use Carbon Fiber for one section and hickory for the other two sections. **Standards** use hickory for all three sections and weigh about 4 lbs. Large fits 69"-75" hunters and the longest section measures 26". XL fits hunters above 76" and the longest section measures 28". *Featherweights \$399 and Standards \$349. Engrave name for \$49-order by 12/16 for holiday delivery.*

RANGER AND CASUAL CROC BELTS-Made from the most durable and desirable portion of the hide, the ridged Hornback. Both styles feature detachable buckles and color coordinated hardware. The **RANGER BELTS** (top two) are a thinner 1 1/4" wide with two eye-catching Hornback panels inlaid on both sides of the buckle sewn to thick leather ends. We are pleased to re-launch this product after discontinuing this labor-intensive model in 2007 when our maker could not keep up with demand. **CASUAL BELTS** (bottom two) are a wider 1 3/8" and a perennial customer favorite. Sizing is easy: measure your existing belt from the hole you use to the end of the leather and order the closest even size 32"-46" (Ranger) and 32-50" (Casual belt). *Both available in Mahogany (reddish brown) or black \$349*

GATOR WEEKENDER BAG-Custom made in the USA by the same company that has a loyal following among professional athletes. The only difference is that we sell ours for less than half of what they pay. Each bag is made from one entire wild monster gator hide, and the widest part of the belly skin measures almost a yard across. The entire exterior is gator, including the handles. The tail is sewn into the interior pocket with the CITES tag attached. Red high-grade leather is used for the interior. These heavy-duty bags are sewn using super-strength thread and are built to last several lifetimes. *22" long x 12" wide x 12" tall-\$6,000*

GATOR BI-FOLD & FRONT POCKET WALLETS are sewn by a surgeon who only hunts trophy sized gators. These huge hides offer greater durability than smaller farm raised hides because they are 2-3X thicker with staggered scales, providing superior resistance to cracking. The **BI-FOLD** wallets measure 4 1/2" x 3 1/2" and the hide is sewn right over the finest calf skin wallets available. **\$299** **FRONT POCKETS** are made primarily from uniquely patterned leg skin which you will never see on similar sized pieces because the leg circumference of farmed animals is too small. This 3" x 4" piece has cash and card slots and is ideal for those who like their essentials up front. **\$199**
